Create The IBM Watson IoT Platform And A Device

The screenshot shows the IBM Watson IoT Platform dashboard. The main heading is 'Browse Devices'. Below it, there are two tabs: 'All Devices' (selected) and 'Diagnose'. A message states: 'This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.' Below this is a search bar labeled 'Search by Device ID'. To the right of the search bar is a 'Device Simulator' toggle switch, which is currently turned on. Below the search bar is a table with the following columns: Device ID, Status, Device Type, Class ID, and Date Added. The table contains one row with the following data: Device ID: Deviceid1, Status: Disconnected, Device Type: DeviceType1, Class ID: Device, Date Added: Oct 27, 2022 12:15 PM. Below the table, there are four tabs: 'Identity' (selected), 'Device Information', 'Recent Events', and 'State'. Below the 'Identity' tab, it says '0 Simulations running'. The dashboard also features a sidebar with various icons and a top navigation bar with the text 'IBM Watson IoT Platform'.

Device ID	Status	Device Type	Class ID	Date Added
Deviceid1	Disconnected	DeviceType1	Device	Oct 27, 2022 12:15 PM

Create Node-RED Service
